Brooklyn's Boycotted School Commissioner Resigns.

Franklin W. Hooper Appointed as His Successor.

Barthman Frozen Out by Lack of Committee Appointments.

Brooklyn had a political sensation today in the resignation of William Barthman as a member of the local Board of Education.

WILLIAM BARTHMAN.  
Mayor Boddy's morning mail was the following letter:

632 GREENE AVENUE,  
BROOKLYN, March 24, 1892.

DAVID A. BODDY, City Hall.  
SIR: I hereby resign my position as a member of the Board of Education.

WILLIAM BARTHMAN.  
Barthman has long been the cause of controversy in the Board of Education. He was finally appointed by ex-Mayor Chapin as the latter's first term and was appointed by President Hendrix to a place on the Committee on Sites.

Barthman came to the surface about Mr. Chapin's connection with the purchase of sites for new schools. They were brought to the attention of the Board and an investigating committee was appointed, who reported a voluminous report censuring Barthman.

Before the report was presented Mayor Chapin took cognizance of the scandal and intimated to Barthman that unless assigned he would be compelled to resign.

Mr. Barthman resigned, and his resignation was accepted by the Mayor and acted on by the Board. The report of the investigating committee was then read.

Anarchist Plot to Replace Dynamite by Subtle Drugs.

Startling Story of Discoveries Made by the Secret Police.

Three Arrests—Mysterious Chemical Compounds to Be Analyzed.

PARIS, March 24.—The *Journal des Debats* today publishes a startling story, which, even if not true, will tend to frighten people by the suggestion it contains.

The paper declares that in their search for the authors of the recent explosions in Paris the police have discovered a band of anarchists who have little faith in the efficacy of dynamite to put out of the way persons whom they regard as in a way responsible for the existing evils of society, and who were upon the point of putting into effect another plan to gain their ends.

According to the *Journal des Debats*, the band referred to had resolved to use poison instead of dynamite, and were making experiments to discover a substance that could be used to cause death with risk of detection.

Three of the band were arrested yesterday. A search of their lodgings resulted in the discovery of an unknown preparation, presumably poison of some kind.

This was taken possession of and sent to the chemists at the municipal laboratory for analysis.

The other niece and a nephew, Gen. Sir Evelyn Wood, brought suit to have the will set aside, alleging that undue influence had been used upon Mrs. Wood to get her to make her will in Mrs. Parnell's favor.

It is said that Mrs. Oshes, to whom everything was left absolutely, has consented to relinquish to the seven claimants a considerable share of her inheritance.

Need of a New City Hall.

Brooklyn's Departments Said to Be Intolerably Crowded.

The Matter to Be Speedily Acted On by the Aldermen.

Brooklyn's immense growth within the past decade is not better evidenced than by the fact that she has again outgrown her public buildings. Nearly every one of the municipal departments is clamoring for more room. Several are now housed in private buildings leased at high rentals. Unless something is soon done several new departments will be compelled to follow this example and move into more commodious quarters in the neighborhood of the City Hall.

So serious has the situation become that a committee of the common council has been organized to investigate the matter. The committee has been instructed to confer with Mayor Boddy and reach a speedy decision on the subject. The construction of a new municipal building will probably be recommended.

Every department occupying quarters in the present Municipal Building has for months been clamoring for more room. City Works Commissioner John P. Adams' department has suffered in this respect perhaps more than any of the others. With the additional labor attendant upon the constant extension of the city's water works, his department has had to occupy a room in the Municipal Building, and a quantity of other work incident to the improvements.

The subject of another city building in which to house the municipal departments has been often broached within the past two years. Although the city owns a splendid and immediately available plot of ground, which might be devoted to the purpose, the matter has never taken definite shape until within a few days. The site alluded to comprises several lots adjoining the present Municipal Building on Montague street.

For numerous reasons, principal among which was the lack of accommodations, it has been decided to build a new city hall on the site of the old City Hall, between Montague and Court streets. The new hall would be a two-story building, and would contain the departments of the City Works, the Police, the Fire, the Public Works, the Board of Health, the Board of Education, the Board of Aldermen, and the City Clerk's office.
